

SafeBridge[®] Training Course Announcement

Can You Handle It Safely? Understanding Potent Compounds

December 7, 2018

The Leela Mumbai Hotel, Mumbai, India

REGISTER ONLINE AT: www.safebridge.com/training
Questions? Contact: Allison.McCarthy@safebridge.com

About the Course

Focused on the systematic and scientific approach to the safe handling of potent compounds including the following topics:

- The language and terminology of potent compounds (compound categorization, OELs and ADEs/PDEs);
- What a facility and company needs to safely handle potent compounds;
- What should a facility handling potent compounds look like both from a "hardware" (facilities, equipment and controls) and "software" (support programs, procedures and practices) perspective;
- Assessing CMOs for their capabilities to safely handle potent APIs and products;
- The importance of quantitative assessment in potent compound safety

Cost: \$400 USD (net) per participant

Fee includes Training, Certificate of Participation issued by SafeBridge, continental breakfast, lunch, course materials

Deadline to Register: December 1, 2018
